

1010 10th Street, Suite 6800 Modesto, CA 95354 Phone: 209-525-6333

AGENDA

Tuesday, August 25, 8:00 AM Third Floor, Conference Room 3001 1010 10th Street Modesto, CA

- 1. Welcome and Roll Call
- 2. Public Comment* Please see instructions below
- 3. Approval of July 14, 2020 Minutes
- 4. Consent Items:
 - a. None
- 5. Public Hearing:
 - a. Third Public Hearing on the Proposed Enhanced Infrastructure Financing District Plan

6. Non-Consent (Action) Items:

- a. Approval of a Resolution Proposing the Adoption of the Infrastructure Financing Plan and Formation of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District
- b. Adoption of an Ordinance Creating the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District and Approving the Infrastructure Financing Plan

7. Correspondence:

- a. None
- 8. Additional Matters:
 - a. None

9. Adjournment

This meeting will be held in person and any interested party may appear. However, social distancing and face coverings are required for in-person attendance at the meeting and audience seating capacity is limited. Members of the public may observe the meeting via telephone and also provide comments or protests to the Public Financing Authority via email in the manner described below:

1. You may listen to the meeting by calling +1 (888) 370-6086 or +1 (559) 512-3189. When prompted enter Conference ID 965 674 134 and follow the instructions.

2. If you prefer to provide written comment or written protest, please submit your comments or protest via email by 8:00 a.m. on Tuesday, August 25, 2020. Please email the Secretary at cavanahp@stancounty.com and include "Infrastructure Financing Plan" in the subject line of the email. Comments or protests received by this time will be read aloud by the Secretary at the hearing.

*PUBLIC COMMENT: Limit comments to five (5) minutes so that everyone may be heard. Matters under the jurisdiction of the Authority and not on this posted agenda may be addressed by the general public at this time, and the Authority may consider adding the item to the next month's agenda for further consideration. California law prohibits the Authority from taking any action on a matter that is not on the posted agenda unless it is determined to be an emergency by the Authority.

REASONABLE ACCOMMODATIONS: In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact Patrick Cavanah at (209) 525-6333. Notification 72 hours prior to the meeting will enable the Council to make reasonable arrangements to ensure accessibility to this meeting.

MEETING MINUTES (DRAFT)

Tuesday, July 14, 2020, 8:00 AM Third Floor, Conference Room 3001 1010 10th Street Modesto, CA

Regular Meeting

Members Present: Supervisor Vito Chiesa (county member), Supervisor Jim DeMartini (county member), Supervisor Kristin Olsen (county member), David White (public member), Wayne Zipser (public member)

Members Absent: None

Staff Present: Patrick Cavanah (Chief Executive Office), Rob Taro (Assistant County Counsel by phone), Keith Boggs (Crows Landing Industrial Business Park Project Manager by phone)

Others Present: Jamie Gomes (EPS/consultant by phone), Russ Powell (EPS/consultant by phone) Constantine Baranoff (KTMG/consultant by phone)

Consistent with the Governor's Executive Orders N-25-20 and N-29-20, the March 31, 2020 Public Financing Authority Meeting was not open for public to attend in person. To maximize public safety while still maintaining transparency and public access, public was offered the opportunity to observe the meeting and address the PFA via email or telephonically as described below:

- Listen to the meeting by calling +1 (888) 370-6086 or +1 (559) 512-3189. When prompted enter Conference ID 895 993 55 and follow the instructions.
- To provide public comment via telephone, please contact the Secretary at (209) 652-1975 no later than 8:00 a.m. on Tuesday, July 14, 2020.
- To provide written comment on a specific agenda item, please submit your comments via email by 8:00 a.m. on Tuesday, July 14, 2020. Please email the Secretary at cavanahp@stancounty.com and include the Agenda Item Number in the subject line of the email. Your written comments will be distributed to the Public Financing Authority and kept on file as part of official record of the meeting.

Call to Order: The meeting was called to order at 8:01 a.m. by Chairman White

1. Welcome and Roll Call

All members of the PFA were present.

2. Public Comment*

Individuals interested in providing public comment were instructed to contact the PFA Secretary by 8:00 AM on July 14, 2020 via telephone or email. No members of the public contacted the Secretary, and no members of the public participated on the teleconference.

Crows Landing Industrial Business Park Public Financing Authority - Minutes (DRAFT) July 14, 2020 Page 2

3. Approval of June 9, 2020 Minutes

Approved the minutes with a correction to reflect that Jody Hayes, CEO was in attendance. (Olsen/Chiesa unanimous)

4. Consent Items:

There were no consent items.

5. Public Hearing:

5.a Conducted the second public hearing on the proposed infrastructure financing plan. The plan included amendments to the draft plan that have occurred since it was first presented at the March 31, 2020 PFA meeting. This includes: increasing the maximum amount of tax increment contribution from 75% to 100%; increasing the estimated number of dollars of tax revenue that may be allocated to the EIFD to a not-to-exceed amount of \$400 million, unless modified by the PFA; updating the projected annual net fiscal surplus to be generated by new Phase 1 development in the EIFD to \$146,200; and grammatical and non-substantive revisions. The public hearing was conducted and no oral or written public comment was received. Staff did inform the PFA that a call was received from the West Stanislaus Fire Protection District; however, their questions were in regard to the development in general and not the infrastructure financing plan.

No action was taken.

6. Non-Consent Items:

6.a Approved a resolution memorializing the second public hearing of the authority, approving amendments to the proposed infrastructure financing plan and calling the third public hearing of the authority. (Olsen/Chiesa unanimous)

7. Correspondence:

There was no correspondence.

8. Additional Matters:

There were no additional matters.

9. Adjournment

Meeting adjourned at 8:12 a.m.

Respectfully Submitted,

Patrick Cavanah, Secretary

Public Financing Authority of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District Agenda Item

BOARD AGENDA: 5.a AGENDA DATE: August 25, 2020

SUBJECT:

Third Public Hearing on the Proposed Enhanced Infrastructure Financing District Plan

STAFF RECOMMENDATIONS:

- 1. Conduct a public hearing on the Proposed Enhanced Infrastructure Financing District Plan.
- 2. Consider all written and oral protests.

DISCUSSION:

Enhanced Infrastructure Financing District (EIFD) Law prescribes the process to form an EIFD. This process includes multiple public hearings as well as communication with landowners, residents, and taxing entities. The first public hearing occurred on June 9th. Staff received no oral or written comments on the draft plan. The second public hearing occurred on July 14, 2020, and no oral or written comments were received on the draft plan.

On July 28, the Board of Supervisors adopted a resolution approving the Infrastructure Financing Plan and on August 3, 2020 a certification was sent to the Department of Financing pursuant to Government Code Section 53398.54.

No changes have been made to the Infrastructure Financing Plan that was presented as part of the second public hearing on July 14, 2020. The notice for the third public hearing and Infrastructure Financing Plan were mailed to the only land owner (NASA) and affected taxing agencies on August 10, 2020 and posted on the project's website (<u>http://crowsbizpark.biz/</u>). In addition, the notice was also published in the Modesto Bee on August 10.

As part of this third public hearing the Public Financing Authority (PFA) is to consider all written and oral protests received along with any recommendations, if any, of affected taxing entities. If less than 25% of the of the combined number of landowners and residents in the area file a protest, the PFA is to adopt the Infrastructure Financing Plan.

POLICY ISSUE:

This recommendation is consistent with the Board of Supervisors' direction of pursuing an EIFD as a necessary tool to assist in financing the development of the Crows Landing Industrial Business Park.

FISCAL IMPACT:

The EIFD's funding of infrastructure costs will be limited to new incremental property tax revenue that is directly derived from development within the proposed EIFD boundary. Stanislaus County

is the only participating taxing agency. The cost of publishing the public hearing notice will be covered by the Chief Executive Office Crows Landing Air Facility budget.

CONTACT PERSON:

Patrick Cavanah, Sr. Management Consultant

Telephone: 209.525.6333

1. Introduction

Crows Landing Industrial Business Park Enhanced Infrastructure Financing District

Project Overview

The Crows Landing Air Facility was commissioned in 1942 as an auxiliary airfield to the Naval Air Station Alameda. The end of the Cold War reduced military operations at Crows Landing. The Department of Defense's Base Closure and Realignment Commission (BRAC) identified the airfield for closure during the 1990s. In 1999, the United States Congress passed Public Law 106-82 to convey the airfield to Stanislaus County (County). Since taking ownership of the airfield, the County has sought opportunities to revitalize the western County's economy through the reuse of the former airfield to benefit the County residents and the region as a whole.

The County has pursued development of a locally based, regional employment center on the 1,528-acre former military property to improve its jobs-to-housing balance and to provide sustainable-wage jobs that will not require long commutes outside of the County. As such, the County has prepared and adopted the Crows Landing Industrial Business Park (CLIBP) Specific Plan in December of 2018. The Specific Plan identified required public infrastructure needed to serve the CLIBP. An initial infrastructure financing plan for the Specific Plan developed infrastructure costs in 2015 dollars. Interwest Consulting Group updated infrastructure costs in 2019 and prepared a Financing Plan Update which provides infrastructure cost estimates that are adjusted for inflation based upon the expected completion of infrastructure phasing.

AECOM prepared a CLIBP Financing Plan in November 2016 that identified potential funding sources for public infrastructure and services required to serve the Specific Plan. Public financing options for public infrastructure included special districts, such as Mello-Roos Community Facilities Districts (CFDs) and Enhanced Infrastructure Financing Districts (EIFDs). Economic & Planning Systems, Inc. (EPS) prepared initial estimates of tax increment revenues that could be generated through an EIFD formed over the Specific Plan for that 2016 Financing Plan document.

Enhanced Infrastructure Financing District Formation and Public Financing Authority

California Government Code sections 53398.50–53398.88 (Enhanced Infrastructure Financing District [EIFD] Law) enabled jurisdictions to consider formation of EIFDs as a means of using tax increment financing to fund a variety of eligible improvements with communitywide benefit. An EIFD may be formed by resolution of the governing body of an affected taxing entity (ATE) proposing to dedicate all or a portion of its incremental property tax revenue to the EIFD. Formation of an EIFD establishes a Public Financing

Authority (PFA) that operates as the governing board of the district once the EIFD is formed. As is the case for the proposed Crows Landing Industrial Business Park EIFD (CLIBP EIFD), if the EIFD has only 1 ATE, then the PFA's membership shall consist of 3 members of the legislative body of the participating entity (e.g., County) and 2 members of the public chosen by the legislative body.¹ Thus, for the CLIBP EIFD, the PFA will consist of 3 members of the Board of Supervisors and 2 public members for a total of 5 members.

Infrastructure Financing Plan

This Infrastructure Financing Plan (IFP) for the CLIBP EIFD has been prepared in accordance with the EIFD Law. The CLIBP EIFD will be an important tool for the County to continue its efforts to transition the CLIBP from a former naval airbase site that has been vacant for decades to a vibrant, mixed-use business park that will bring jobs and economic development opportunities to western Stanislaus County and the region.

The CLIBP EIFD will be funded solely from property tax increment revenues. The CLIBP EIFD does not impose any new tax on property owners, and the County will be the sole ATE that will participate in and contribute property tax increment revenues to the CLIBP EIFD.

As required by Government Code Sections 53398.59–53398.74, this IFP contains the following information:

- 1. A map and legal description of the proposed CLIBP EIFD boundaries as presented in **Attachment A**.
- 2. A description of the public facilities and other forms of development or financial assistance proposed in the area of the district, including those to be provided by the private sector, those to be provided by governmental entities without assistance from the CLIBP EIFD, those to be financed with assistance from the proposed CLIBP EIFD, and those to be provided jointly by a governmental entity and the private sector, as presented in **Chapter 2**.
- 3. A finding that the development and financial assistance are of communitywide significance and provide significant benefits to an area larger than the area of the CLIBP EIFD. This information is presented in **Chapter 2**.
- 4. A financing section, containing all of these:
 - a. A specification of the maximum portion of the incremental tax revenue of each affected taxing entity proposed to be committed to the CLIBP EIFD each year during which the CLIBP EIFD will receive incremental property tax revenue. It is important to note that no taxing entity other than the County will allocate tax increment revenues to the CLIBP EIFD. *The maximum portion of the County's*

2

Z:\Shared\Projects\SAC\182000\182058 Crows Landing EIFD Formation\Reports\182058 Draft IF Plan 07-2020.doc

¹ California Government Code Section 53398.51.1 (1).

property tax increment revenue allocation proposed to be apportioned, subject to applicable law, to the EIFD will be 100.0 percent until such time as the cost of eligible EIFD facilities has been satisfied as described in Chapters 2 and 3.

- b. A projection of the amount of tax revenues expected to be received by the CLIBP EIFD in each year during which the CLIBP EIFD will receive tax revenues, including an estimate of the amount of tax revenues attributable to each ATE for each year. An annual projection of tax revenues to be allocated to the CLIBP EIFD is contained in Chapter 3 of this IFP. The inputs and assumptions used in this IFP are based on information available as of preparation of this IFP about recent historic, current, and anticipated trends. These projections are considered reasonable for planning purposes, but actual results will differ from those estimates included in this IFP.
- c. A plan for financing facilities to be assisted by the CLIBP EIFD, including a description of any intention to incur debt. *The financing plan is presented in Chapter 3 of this IFP.* It is not anticipated at the time that bonds will be issued by the PFA. However, if the PFA chooses to issue bond debt secured by the CLIBP EIFD tax increment revenues when it is financially prudent to do so, based on the tax revenue projections contained in this IFP, it is estimated that a range of approximately **\$10.3 million to \$31.7 million** (2019 dollars) of net bond proceeds could be generated during the duration of the EIFD. This project is based upon available tax increment revenues during the infrastructure construction period of the EIFD. Attachment E shows two assumed EIFD bond issuances. This projection, which is included in Attachment E, is considered reasonable for planning purposes, but actual results will differ from those estimates included in this IFP.
- d. A limit on the total number of dollars of property tax increment revenue that may be allocated to the CLIBP EIFD pursuant to this IFP. *The maximum number of dollars of tax revenue that may be allocated to the CLIBP EIFD shall not exceed \$400 million (as shown in Chapter 3), unless modified by the PFA.*
- e. A date on which the CLIBP EIFD will cease to exist, by which time, all tax revenue allocation to the CLIBP EIFD will end. Pursuant to Government Code section 53398.63 et seq., the maximum duration of an EIFD is 45 years from the date on which the issuance of bonds is approved, pursuant to subdivision (a) of section 53398.81, or the issuance of a loan to the CLIBP EIFD is approved by an affected taxing entity pursuant to section 53398.87. *Based on these requirements, the proposed CLIBP EIFD termination date will be the earlier of (a) 45 years following the first bond issuance by the PFA; or, (b) 45 years after the County approves a loan to the CLIBP EIFD. The specific dates on which those actions may be taken for the CLIBP EIFD are not known at this time. However, the CLIBP EIFD will cease to exist by no later than June 30, 2100. The financial projections are based on the assumption that the*

CLIBP EIFD will be formed in Fiscal Year (FY) 2020/21 and will begin receiving tax revenues in FY 2022/23. The financial analysis in this IFP is based on the assumption that the PFA would not seek approval for the issuance of bonds before FY 2020/21, and the County would not provide a loan to the CLIBP EIFD before that date, noting specifically that these assumptions do not preclude the PFA from taking alternative actions.

- f. An analysis of the costs to the County of providing facilities and services to the area of the CLIBP EIFD during the time the area is being developed and after the area has been developed. Appendix C in Attachment D to this IFP includes a projection of service costs during the time the CLIBP EIFD area is being developed and after it has been developed. It is projected that at the end of the Initial Phase (development estimated to absorb through 2026), new development in the CLIBP EIFD will generate about \$231,900 (2019\$) of additional, annual municipal service costs to the County. Upon buildout and stabilization, new development in the CLIBP EIFD will generate approximately \$3.3 million (2019\$) of additional, annual municipal service costs to the County.
- g. An analysis of the projected fiscal impact of CLIBP EIFD and the associated development upon each ATE. ATEs are defined as any governmental taxing agency that levied or had levied on its behalf a property tax on all or a portion of the property located within the boundaries of the CLIBP EIFD in the fiscal year before the formation of the CLIBP EIFD, but not including any county office of education, school district, or community college district. No taxing entity other than the County will allocate tax increment revenues to the CLIBP EIFD. Given that all other taxing entities will not be impacted by the formation of the CLIBP EIFD, this IFP includes an analysis of the fiscal impact of the CLIBP EIFD to the County only. The fiscal impact analysis is provided as Attachment D of this IFP. It is projected that at the end of the Initial Phase (development estimated to absorb through 2026), new development in the CLIBP EIFD will generate an annual net fiscal surplus of about \$146,200 (2019\$). Upon buildout of anticipated new development in the CLIBP EIFD, new development is estimated to generate a net fiscal surplus approximating \$511,300 annually (2019\$). These net fiscal impact analysis results are based on the assumption that 100 percent of property tax increment generated by properties in the CLIBP EIFD is allocated to the CLIBP EIFD for Phase 1A and 75 percent for the remaining phases. For the sake of clarity, the PFA would be authorized to use 100 percent of the property tax increment for the duration of the EIFD but the PFA would have discretion to use less than the maximum amount. The funding scenario modeled in this report reflects one potential property tax increment revenue utilization outcome in the EIFD.
- 5. A plan for replacing dwelling units that are proposed to be removed in the course of public works construction in the district or private development in the district that is subject to a written agreement with the district or that receives financial assistance from the district. **No dwelling units will be removed as a result of any project**

Z:\Shared\Projects\SAC\182000\182058 Crows Landing EIFD Formation\Reports\182058 Draft IF Plan 07-2020.docs

identified in this IFP. Therefore, a housing replacement plan is not included in this IFP.

6. The goals the district proposes to achieve for each project to be financed by the district. The district's goals for each project to be financed by the CLIBP EIFD are addressed in Chapter 2 of this IFP.

THIS PAGE INTENTIONALLY LEFT BLANK

2. CLIBP EIFD Overview and Description of Facilities

Description of CLIBP EIFD

The CLIBP EIFD is being considered to provide partial funding for construction of the infrastructure needed for CLIBP development. The estimated cost to design and construct the EIFD-eligible infrastructure is approximately \$249.6 million (in 2019 dollars).

EIFD revenues would be limited to net-new incremental property tax revenue that is directly derived from development in the CLIBP EIFD. The CLIBP EIFD is proposed to provide reimbursement for loans made to the CLIBP EIFD by the County to fund initial construction work.

Anticipated Future Development in EIFD

The CLIBP EIFD includes approximately 823.0 developable acres. **Table 2-1** shows the planned nonresidential development in the CLIBP EIFD. Approximately 13.5 million nonresidential building square feet is anticipated to occur in the CLIBP EIFD. Development is anticipated to be constructed over a 30- to 40-year buildout period. **Table 2-1** shows assumed development by phase over a 40-year period.

Although the financing section of this report is based on a certain assumed pace of development, the actual timing of development may differ from those assumptions on which this analysis is based.

EIFD-Financed Facilities

The EIFD is authorized to finance the purchase, construction, expansion, improvement, or rehabilitation of the facilities described herein. These facilities have an estimated useful life of 15 years or longer and are projects of communitywide significance that provide significant benefits to the EIFD or the surrounding community. Any facilities located outside the boundaries of the EIFD have a tangible connection to the work of the EIFD. The EIFD will also finance planning and design activities that are directly related to the purchase, construction, expansion, or rehabilitation of these facilities. Facilities authorized to be financed by the EIFD include the following infrastructure projects:

- The ongoing or capitalized costs to maintain public capital facilities financed in whole or in part by the EIFD.
- Highways, interchanges, ramps and bridges, arterial streets, parking facilities, and transit facilities.
- Sewage treatment and water reclamation plants and interceptor pipes.
- Facilities for the collection and treatment of water for urban uses.
- Flood control levees and dams, retention basins, and drainage channels.
- Parks, recreational facilities, and open space.
- Facilities for the transfer and disposal of solid waste, including transfer stations and vehicles.
- The development of projects on a former military base, provided that the projects are consistent with the military base authority reuse plan and are approved by the military base reuse authority, if applicable.
- Acquisition, construction, or repair of industrial structures for private use.

A description of the authorized facilities is provided in **Attachment B**. All these EIFDeligible infrastructure projects would need to be constructed to County standards. Below are descriptions of the types of costs authorized to be CLIBP EIFD-financed.

Description and Estimated Cost of EIFD Facilities

Cost estimates for EIFD facilities are derived from the Crows Landing Industrial Business Park Financing Plan Update, prepared by Interwest Consulting Group, dated March 22, 2019. Total estimated costs for CLIBP EIFD facilities equal approximately \$249.6 million (in 2019 dollars). The estimated costs are based on the following types of CLIBP EIFDeligible facilities. Costs are summarized by phase in **Table 2-2**.

Table 2-2Crows Landing Industrial Business ParkEIFD InfrastructureSummary of Infrastructure Costs By Phase

		Offsite Costs	Costs
Phase 1A	\$26,597,630	\$3,024,375	\$29,622,005
Phase 1B	\$51,118,316	\$33,968,029	\$85,086,345

Total Costs	\$185,983,210	\$63,594,924	\$249,578,134

Source: Crows Landing Industrial Park Financing Plan Update, March 22, 2019

Transportation Facilities

Transportation improvements include the following items: acquisition of land and easements; roadway design; project management; geotechnical engineering, testing, and observations; bridge crossings and culverts; clearing, grubbing, and demolition; grading, soil import/export, paving (including slurry seal), and decorative/enhanced pavement concrete or pavers; power pole relocations; joint trenches, underground utilities, and undergrounding of existing utilities; dry utilities and appurtenances; curbs, gutters, sidewalks, bike trails (including on- and off-site), and roadway tunnels; park and ride facilities, bus rapid transit improvements, including transfer stations and regional public transit improvements, including transit station(s); retaining walls, sound walls, enhanced fencing, and access ramps; street lights, signalization, and traffic signal control systems; bus turnouts; signs and striping; erosion control; median and parkway landscaping and irrigation; entry monumentation; bus shelters; masonry walls; traffic control and agency fees; and other improvements related thereto. Eligible improvements for the roads listed above also include any and all necessary underground potable and non-potable water, sanitary sewer, and storm drainage system improvements.

Sewer Improvements

Authorized facilities include any and all on- and off-site backbone sewer infrastructure facilities; including pipelines and all appurtenances thereto; manholes; tie-in to existing main line; force mains; lift stations; odor-control facilities; sewer treatment plant improvements and permitting related thereto; and related sewer system improvements, and all sewer facilities in/associated with authorized transportation improvements.

Potable Water and Non-Potable Improvements

Authorized facilities include any and all on- and off-site backbone water facilities designed to meet the needs of development of the project. These facilities include potable and non-potable mains, valves, services, and appurtenances; wells; and water treatment and storage facilities, and related improvements, including but not limited to: site clearing, grading, and paving; curbs and gutters; recycled water storage tanks, booster pump stations, and all appurtenances thereto; wells; water treatment; stand-by generator; site lighting, drainage, sanitary sewer, and water service; landscaping and irrigation; access gates and fencing; and striping and signage.

Storm Drainage Improvements

Authorized facilities include any and all on- and off-site backbone drainage and storm drainage improvements designed to meet the needs of development of the project. These facilities include mains, pipelines and appurtenances, outfalls and water quality measures, temporary drainage facilities, detention/retention basins, and drainage pretreatment facilities; drainage ways/channels, pump stations, landscaping, and irrigation; access roads, gates, and fencing; and striping and signage.

Incidental Expenses

In addition to the direct costs of the above facilities, other incidental expenses as authorized by the EIFD Law, including, but not limited to, the cost of engineering, planning, and surveying; construction staking; utility relocation and demolition costs incidental to the construction of the facilities; costs of project/construction management; costs (including the costs of legal services) associated with the creation of the EIFD; issuance of bonds or other debt; costs incurred by the County of Stanislaus or the EIFD in connection with the division of taxes pursuant to Government Code section 53398.75; costs otherwise incurred in order to carry out the authorized purposes of the EIFD; and any other expenses incidental to the formation and implementation of the EIFD and to the construction, completion, inspection, and acquisition of the authorized facilities.

EIFD-Funded Facilities

The following sections required by EIFD Law describe how EIFD facilities may be constructed, whether privately or publicly. At the time of EIFD formation, it is uncertain whether the County and CLIBP developers might jointly provide EIFD-funded facilities. The EIFD and IFP are flexible to fund facilities that may be constructed entirely privately, jointly by the private sector and the County, or entirely County constructed.

Facilities to Be Provided by the Private Sector

Public facilities constructed by the private sector may be eligible for reimbursement from the County through funds generated by the EIFD, development impact fees, or land-secured financing districts, such as Mello-Roos Community Facilities Districts (CFDs) or Assessment Districts (ADs).

Facilities to Be Provided by the Public Sector Without Assistance from the EIFD

Separate from EIFD-funded facilities, specifically related to overall development of the CLIBP, the County may use available funds to construct eligible public infrastructure, such as County-imposed development impact fees, tobacco settlement funds or funds from other available sources. The provisions of this IFP do not preclude the County or other public-sector entity from providing facilities without assistance from the EIFD.

Facilities Provided Jointly by Private Sector and Governmental Entities

It is possible that EIFD-funded facilities may be funded by some combination of private and governmental entity (County) effort. This IFP does not preclude this potential outcome.

Z:\Shared\Projects\SAC\182000\182058 Crows Landing EIFD Formation\Reports\182058 Draft IF Plan 07-2020.doc

Communitywide Benefits of EIFD-Funded Facilities

County investment in EIFD-funded public facilities related to the CLIBP EIFD construction is anticipated to leverage private investment in the redevelopment of the former airfield and area adjacent to the EIFD boundaries. The County and surrounding region would recognize one-time and ongoing economic benefits from these investments.

Specifically, since taking ownership of the airfield, the County has sought opportunities to revitalize the western County's economy through the reuse of the former airfield to benefit the County residents and the region as a whole. Communitywide benefits of EIFD funded facilities would come from the revitalization of economy of the western County resulting from the full development of the CLIBP. The County is investing in public infrastructure to encourage economic development along the I5 corridor, which could lead to development of living-wage jobs in a portion of the County that currently lacks such employment opportunities. Economic benefits will accrue to nearby communities, such as Crows Landing and Newman.

Enhanced property values resulting from investment in public infrastructure will also provide tax revenues that can be used to fund critical public services in the western portion of the County.

Goals Achieved by EIFD-Funded Facilities

Development of the Crows Landing Industrial Business Park supports the Board of Supervisors' priorities of *Developing a Healthy Economy* and *Delivering Efficient Public Services and Community Infrastructure.* Specifically, the development will encourage and support the following goals:

- Focus on engaging families to participate in and be supported by a healthy economy.
- Facilitate job creation.
- Promote an attractive regional environment.

Successfully developing an industrial business park folds into the important role that County government plays in creating a healthy and thriving economy that provides diversified economic opportunities. The County is committed to supporting an economic environment that allows for increased employment, business growth, and general economic advancement. The development of the Crows Landing Industrial Business Park will create a regional employment center closer to where County residents reside. Developing the infrastructure system is essential to the quality of life for the residents of Stanislaus County, and to the maintenance and expansion of a robust economy. The development of the business park would provide direct and indirect jobs and ongoing economic output. Significant benefits to the overall economy and quality of life through this development would be a direct result of this effort.

3. Financing Section

This chapter describes the financing of CLIBP EIFD facilities and the maximum portion of property tax increment revenues that may be dedicated to the CLIBP EIFD. Estimates of CLIBP EIFD revenues are described in this chapter, as well as the estimated fiscal impacts of the proposed new development on the County's General Fund.

Maximum Portion of Incremental Tax Revenue Committed to EIFD

The County is only pledging incremental property tax revenues to the CLIBP EIFD and is not pledging other sources of eligible revenues. As described in this Financing Section, incremental property tax revenues may only include property tax revenues. The maximum portion of incremental property tax revenues (as defined above) the County is proposed to commit to the EIFD is 100 percent of the County's share of annual property tax revenues attributable to CLIBP EIFD properties.

Tax Revenue Projections

Tax revenues available to the CLIBP EIFD will be based on the County's share of property tax revenue attributable to the growth in taxable assessed value in the CLIBP EIFD beginning FY 2020/21. Property tax revenue is collected by the County Tax Collector through a 1.0 percent general tax levy on the taxable assessed value of all real property. The 1.0 percent property tax levy is collected and distributed to agencies within the County's geographic area, including the County, school districts, and special districts in accordance with applicable state statutes.

This section describes anticipated CLIBP EIFD revenues by year, with consideration to the statutory framework dictating the distribution of property tax revenues as that framework may change over time. **Table 3-1** summarizes the estimated maximum CLIBP EIFD revenue projections by year (at 100 percent of the County's share of annual property taxes), and the following sections offer a detailed description of the analysis supporting the revenue projections. As described later in this chapter, the fiscal impact analysis is based on the assumption that the property tax allocation to the EIFD would be reduced to 75 percent from 100 percent following Phase 1. Please refer to the Fiscal Impact Analysis section and **Table 8** in **Attachment C** for further details.

Figure 1 shows the annual tax increment revenue projections for the EIFD and those amounts identified for the PFA and the remaining amount to the County General Fund, based on the assumptions denoted herein. **Figure 2** shows the estimated cumulative tax increment revenue that could accrue to the PFA based on the assumptions in this Infrastructure Financing Plan document.

It is important to note that the amounts shown in **Table 3-1** and related figures are based on the best information available regarding the amount, timing, and value of future development in the CLIBP EIFD. However, because of substantial uncertainty regarding the timing of CLIBP EIFD development, the actual revenues will be different than the projections contained herein.

Financing Plan

As described below, the CLIPB Financing Plan (Financing Plan) within the CLIBP Specific Plan document (Specific Plan) identified the CLIBP infrastructure financing strategy. In that document, Stanislaus County established a development entitlement vehicle for the CLIBP project through the County's specific plan process and accompanying design guidelines and infrastructure plans. Concurrent with the Specific Plan process, the County identified public financing options that it may pursue to help fund CLIBP backbone infrastructure. Over the course of CLIBP development, it is likely that a range of public financing mechanisms will be used to pay for infrastructure and public facilities. These mechanisms will augment and, in some cases, reimburse the capital financing (through private or public advance-funding) that is likely to be necessary in early stages of development. The financing for infrastructure improvements and public facilities, as well as for ongoing operations required by the CLIBP, are anticipated to have multiple funding sources.²

The Financing Plan summarized the financing strategy as follows:

- Continue refining CLIBP infrastructure and public facility improvement program.
- Establish an EIFD.
- Establish special district(s) for infrastructure improvements and operations and maintenance costs.
- Consider and pursue other complementary funding mechanisms and sources for the industrial business park, including the airport.
- Encourage private developer equity investment.

The Specific Plan financing strategy sets forth the overarching approach to funding the backbone infrastructure that will be required to develop new land uses within the CLIBP. At the time of EIFD formation, it remains unclear exactly which facilities will be publicly constructed versus which would be privately constructed. Further, the County understands the estimated total CLIBP infrastructure costs are greater than anticipated EIFD revenues. The EIFD is just one of at least a few funding sources that will be used to construct or reimburse for the construction of CLIBP infrastructure.

² Final Crows Landing Industrial Business Park Specific Plan (dated December 14, 2018) Public Facilities Financing Plan (Appendix K), dated November 30, 2016.

CLIBP backbone infrastructure is anticipated to be funded through a combination of at least the following sources:

- CLIBP Project Area development impact fees.
- Land-Secured Financing mechanisms (such as a Mello-Roos Community Facilities District or Assessment District).
- County funding for initial Phase 1A infrastructure (as may be reimbursed with EIFD revenues).
- Regional, State, or Federal grants or loans that may be available (e.g., United States EDA, California Proposition 1, Airport Improvement Program).
- Rate-based financing mechanisms to the extent applicable and feasible.

For any EIFD-eligible improvements that may be privately constructed, the County anticipates CLIBP Developers would be responsible for securing financing and other funding sources needed to design and construct the improvements. Once completed and accepted by the County, the constructing entity may be eligible to be reimbursed by EIFD revenues subject to one or more reimbursement agreements executed between the constructing entity and the PFA.

Maintenance Financing

In addition to infrastructure financing, the Specific Plan Financing Plan also identifies that ongoing operations and maintenance funding of new backbone infrastructure and other public facilities would likely be funded through the following combination of sources:

- Lighting and Landscaping Districts
- Mello-Roos CFD for maintenance.
- Rates and Service charges
- Private maintenance efforts (e.g., property owner or business park associations, etc.)

EIFD Tax Limit

The analysis in **Attachment C** informs the estimated number of dollars of tax revenue that may be allocated to the CLIBP EIFD, which shall not exceed \$400 million, unless modified by the PFA.

EIFD Termination Date

The specific date on which the CLIBP EIFD will terminate is not known at this time. Pursuant to Government Code Section 53398.63 et seq., the maximum duration of the CLIBP EIFD would be 45 years from the earlier date on which the issuance of bonds is approved pursuant to subdivision (a) of Government Code Section 53398.81, or the issuance of a loan to the CLIBP EIFD is approved by an affected taxing entity pursuant to Government Code Section 53398.87. Based on these requirements, the proposed CLIBP EIFD termination date will be the earlier of (a) 45 years following a successful bond election by the qualified electorate if an election is required or following the first bond issuance by the PFA if an election is no longer required; or, (b) 45 years after the County approves a loan to the CLIBP EIFD. However, the CLIBP EIFD will cease to exist by no later than June 30, 2100.

Fiscal Impact Analysis

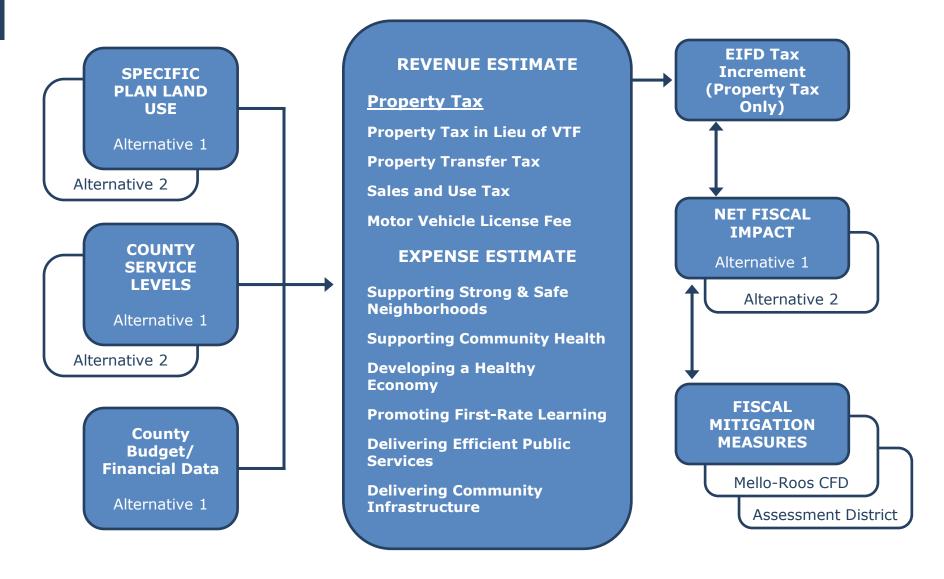

In accordance with Government Code section 53398.63(d), this report includes an analysis of the costs of the County in providing facilities and services, as well as the estimated fiscal impacts of incremental new development in the EIFD, on the County's operating budget (General Fund), during development and at buildout. Except as described in this Infrastructure Financing Plan, the County does not anticipate incurring additional costs for providing facilities during development and at buildout.

The fiscal impact analysis estimates tax and other operating public revenues generated by new development, as well as the cost of public services required to serve new development. The analysis only focuses on fiscal impacts to the County, the sole ATE in the EIFD. The fiscal impact analysis does not address activities budgeted in other Governmental Funds. **Figure 3** illustrates the key inputs and methodology used to prepare the fiscal impact analysis.

The fiscal impact analysis model used for this report is based on a CLIBP Specific Plan buildout fiscal impact analysis model, developed by EPS in February 2020. EPS consulted the County's budget documents to develop forecasting methodologies for specific revenues and expenditures affected by new development. In addition, EPS consulted with County staff to clarify budget data and review fiscal assumptions on which this analysis is based. The model is based on the FY 2019/20 Adopted Budget, 2019 Countywide population figures for fiscal multipliers, and existing 2019 market conditions. All results are reported in 2019 dollars.

A summary of annual net fiscal impact analysis results through 2026 (Phase 1A), and for Phase 1B, Phase 2, Phase 3, and at buildout is provided in **Table 3-2**. A detailed summary of project revenues and expenditures through 2026 (Phase 1A), and for Phase 1B, Phase 2, Phase 3, and at buildout is provided in **Table 3-3**. As shown, revenues generated by incremental new development in the EIFD are greater than expenditures for the County's General Fund by approximately \$146,200 annually in 2026 and greater than expenditures by approximately \$511,300 annually at buildout. Expenditures exceed General Fund revenues through Phase 1A and Phase 1B of development, and are greater than the County's General Fund costs to serve new EIFD development through Phases 2 and 3.

det sum

Key assumptions underlying these fiscal impact analysis results are described below:

- Incremental New Development and Population. The initial phase (new development estimated to be absorbed through 2026) includes about 1.57 million gross building square feet of nonresidential space. Initial phase development translates into about 2,700 employees. At buildout, incremental new land uses in the CLIBP EIFD includes about 13.5 million building square feet of nonresidential space. This level of development translates into about 19,000 employees.
- County General Fund Property Tax Revenue. Incremental new property tax revenue generated by new development in the EIFD is based on the County General Fund's share of the 1 percent property tax rate is assumed to be allocated at 100 percent for Phase 1A. For the remaining phases of the Project, this analysis is based on the assumption that the share of the property tax rate is assumed to be 75 percent of the full tax increment generated by the EIFD. The remaining 25 percent would be available after Phase 1A to fund municipal services. Please see Table 8 in Attachment C for estimated revenue projections for this assumption.
- **County Property Tax in Lieu of Vehicle License Funding.** All Property tax in Lieu of VLF is assumed to be allocated to the County's General Fund.
- Sales Tax Revenue. Sales tax revenue is based on estimated taxable sales from new market demand (new employees in the EIFD) and the Bradley-Burns local 1 percent Uniform Local Sales Tax rate anticipated to be generated by new nonresidential establishments in the Project.
- County General Fund Service Cost Assumptions. New CLIBP development would represent incremental growth within the County adding approximately 19,000 employees to a County with an existing population base of approximately 560,000 residents and 217,000 employees (including those residents and employees in the incorporated cities). While this growth would be a significant economic development boost to the County, the addition of another 19,000 employees wouldn't have a large impact on most County-provided services, particularly general government functions. As such, the County General Fund service cost assumptions includes adjustment factors (see Table C-1 in Attachment D) that recognize many of the County's general government functions are relatively fixed costs and that new incremental CLIBP development won't create a direct, linear increase in cost as compared to the County's existing service population.

The assumptions, methodology, and detailed technical revenues and expenditure calculations of the fiscal impact analysis can be found in **Attachment D**.

Financing Reimbursement Costs

Government Code section 53398.63(b)(8) that an EIFD may be used to provide reimbursement to a developer who constructs eligible facilities. At this time, the County may invest available funds for public infrastructure improvements in the EIFD. The

County does not anticipate that it will seek reimbursement for such investments from tax increment revenues, however; nothing in this report precludes that from occurring. No developers have been identified at this time, but the PFA and County may consider reimbursement of developer costs if the occasion arises.

Dwelling Unit Replacement Plan

Because no dwelling units exist in the CLIBP EIFD area, no dwelling units within the EIFD boundaries will be removed or destroyed in the course of private development or public works construction in the EIFD. Consequently, this IFP does not include a housing replacement plan.

- 5) thence North 89°27'54" West along said south line of Section 17, a distance of 1178.54 feet to the southwest corner of said Section 17;
- 6) thence North 00°31'22" East, along the west line of said Section 17, a distance of 5293.56 feet to the southwest corner of said Section 8;
- 7) thence South 89° 21' 55" East, along the south line of said Section 8, a distance of 2648.88 feet to the south quarter corner of said Section 8;
- 8) thence North 00°25'24" East, 5301.82 feet to a point on the north line of said Section 8, said point being South 89°32'24" East 2640.14 feet from the northwest corner of said Section 8;
- 9) thence South 89°32'11" East along said north line of Section 8, a distance of 2644.21 feet to the northwest corner of said Section 9;
- 10) thence South 89°25'05" East along the north line of said Section 9, a distance of 226.63 feet to the westerly right-of-way line of State Highway 33;
- 11) thence South 29°58'46" East, along said westerly right-of-way line, a distance of 1013.30 feet;
- 12) thence South 01°42'42" East 4435.72 feet to the south line of said Section 9;
- 13) thence North 89°44'09" West along said south line, a distance of 900.03 feet to the northeast corner of said Section 17;
- 14) thence South 00°34'10" West, along the east line of said Section 17, a distance of 5284.35 feet to the northeast corner of said Section 20;
- 15) thence South 00°50'57" West along the east line of said Section 20, a distance of 5275.75 feet to the southeast corner of said Section 20 and the Point of Beginning of the herein described parcel, and containing 1,555.41 acres, more or less.

END DESCRIPTION

ATTACHMENT B:

Description of Facilities to Be Financed

EXHIBIT B

Description of Facilities to be Financed

The EIFD is authorized to finance the purchase, construction, expansion, improvement, or rehabilitation of the facilities described herein. These facilities have an estimated useful life of 15 years or longer and are projects of communitywide significance that provide significant benefits to the EIFD or the surrounding community. Any facilities located outside the boundaries of the EIFD have a tangible connection to the work of the EIFD. The EIFD will also finance planning and design activities that are directly related to the purchase, construction, expansion, or rehabilitation of these facilities. Facilities authorized to be financed by the EIFD include, but are not limited to the following:

1. The ongoing or capitalized costs to maintain public capital facilities financed in whole or in part by the EIFD.

2. Highways, interchanges, ramps and bridges, arterial streets, parking facilities, and transit facilities.

3. Sewage treatment and water reclamation plants and interceptor pipes.

4. Facilities for the collection and treatment of water for urban uses.

5. Flood control levees and dams, retention basins, and drainage channels.

6. Parks, recreational facilities, and open space.

7. Facilities for the transfer and disposal of solid waste, including transfer stations and vehicles.

8. The development of projects on a former military base, provided that the projects are consistent with the military base authority reuse plan and are approved by the military base reuse authority, if applicable.

9. Acquisition, construction, or repair of industrial structures for private use.

Other Expenses

In addition to the direct costs of the above facilities, other incidental expenses as authorized by the EIFD Law, including, but not limited to, the cost of engineering, planning, and surveying; construction staking; utility relocation and demolition costs incidental to the construction of the facilities; costs of project/construction management; costs (including the costs of legal services) associated with the creation of the EIFD; issuance of bonds or other debt; costs incurred by the County of Stanislaus or the EIFD in connection with the division of taxes pursuant to Government Code section 53398.75; costs otherwise incurred in order to carry out the authorized purposes of the EIFD; and any other expenses incidental to the formation and implementation of the EIFD and to the construction, completion, inspection, and acquisition of the authorized facilities.

Source: California Department of Finance; EDD; U.S. Census LED; EPS.

- [1] Reflects the County of Stanislaus Fiscal Year 2019-20 proposed budget. Revenues and expenditures are in 2019 dollars. This analysis does not reflect changes in values resulting from inflation or appreciation.
- [2] Based on population estimates from the California Department of Finance (DOF) data for January 1, 2019.
- [3] US Census Onthemap.ces.census.gov estimated a total of 186,753 jobs in Stanislaus County in 2015. California EDD reports an annual average growth rate of 2.79% since 2017 for Stanislaus County.
- EPS escalated 2017 employment figure to arrive at 2019 employment estimate, adjusted by an additional 10% to account for self-employed workers, and rounded to the nearest hundred employees.
- [4] Persons served is defined as total population plus half of total employees. Used to estimate specific revenues and expenditures that are assumed to be impacted by growth in resident and employment populations and to avoid double counting of employees who reside in the City.

[1] Reflects the average property tax allocation to the County

General Fund for TRA83-005

[2] Refer to Table D-1 for details.

[3] The EIFD may allocate all or a portion of the tax increment to authorized facilities. Under this model, 100-percent of tax increment is allocated to authorized facilities in Phase 1A, with 75-percent being allocated for remaining phases.

An adjustment factor may be used to reflect the fact that new employees may not increase certain General Fund department expenditures at a 1:1 ratio. This analysis does not assume an adjustment.
 A majority of the police protection budget serves the unincorporated County population only. This analysis excludes this portion of the budget and only accounts for countywide cost impacts.

Public Financing Authority of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District Agenda Item

BOARD AGENDA: 6.a AGENDA DATE: August 25, 2020

SUBJECT:

Approval of a Resolution Proposing the Adoption of the Infrastructure Financing Plan and Formation of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District

STAFF RECOMMENDATIONS:

1. Approve a resolution proposing the adoption of the Infrastructure Financing Plan and formation of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District.

DISCUSSION:

As required by Government Code Sections 53398.68 and 53398.69, approving the resolution will propose adoption of the Infrastructure Financing Plan for the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District and form the Enhanced Infrastructure Financing District.

In addition, by adopting the resolution the Public Financing Authority finds that the County conducted environmental review on the Crows Landing Industrial Business Park Specific Plan in the 2018 Environmental Impact Report (EIR), and the establishment of an EIFD is not a project as defined by California Environmental Quality Act (CEQA) Guidelines. Based on this, the resolution authorizes the Secretary of the Authority to file a notice of exemption with the County Clerk to that effect.

POLICY ISSUE:

This recommendation is consistent with the Board of Supervisors' direction of pursuing an EIFD as a necessary tool to assist in financing the development of the Crows Landing Industrial Business Park.

FISCAL IMPACT:

The EIFD's funding of infrastructure costs will be limited to new incremental property tax revenue that is directly derived from development within the proposed EIFD boundary. Stanislaus County is the only participating taxing agency. The cost of publishing the public hearing notice will be covered by the Chief Executive Office Crows Landing Air Facility budget.

1. Resolution

RESOLUTION NO. 2020-005

Adopted by the Crows Landing Industrial Business Park Public Financing Authority

A RESOLUTION PROPOSING THE ADOPTION OF THE INFRASTRUCTURE FINANCING PLAN AND FORMATION OF THE CROWS LANDING INDUSTRIAL BUSINESS PARK ENHANCED INFRASTRUCTURE FINANCING DISTRICT

WHEREAS, pursuant to Resolution No. 2020-0035 adopted on January 28, 2020 (the "Resolution of Intention"), the Board of Supervisors of the County of Stanislaus (the "Board of Supervisors") (i) initiated the process to establish the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District (the "EIFD") to finance certain public and other specified facilities, (ii) approved the establishment of the EIFD's Public Financing Authority (the "Authority"), as the governing board of the EIFD to be responsible for directing the preparation and implementation of the infrastructure financing plan (the "Infrastructure Financing Plan"), (iii) approved the preparation and distribution of the Infrastructure Financing Plan in accordance with Chapter 2.99 of Part 1 of Division 2 of Title 5 of the California Government Code (commencing with Section 53398.50) (the "EIFD Law"), and (iv) fixed the time and place when and where the Authority would conduct its first public hearing on the proposed establishment of the EIFD and the Infrastructure Financing Plan.

WHEREAS, the Board of Supervisors, on July 28, 2020, adopted its Resolution No. 2020-0399 approving the Infrastructure Financing Plan, a copy of which has been filed with the Authority.

WHEREAS, in accordance with the EIFD Law, the Authority conducted the first public hearing on the proposed establishment of the EIFD and the Infrastructure Financing Plan on June 9, 2020, the second public hearing on July 14, 2020, and the third public hearing on August 25, 2020.

WHEREAS, notices of the public hearings were duly published and posted as required by the EIFD Law, as evidenced by the affidavits on file with the Secretary of the Authority.

WHEREAS, pursuant to the EIFD Law, at the third public hearing, the recommendations of any affected taxing entities, the testimony of all interested persons, including all landowners and residents within the boundaries of the EIFD desiring to be heard on the adoption of the Infrastructure Financing Plan or the regularity of the prior proceedings, was heard and considered, and a full and fair hearing was held thereon.

WHEREAS, written and oral protests against the establishment of the EIFD or the adoption of the Infrastructure Financing Plan by the Authority, have not been filed by over 25% of the combined number of landowners and residents within the boundaries of the EIFD who are over 18 years of age and there was no majority protest.

WHEREAS, the Authority hereby finds and determines that all prior proceedings had and taken by the Authority with respect to the proposed establishment of the EIFD and adoption of the Infrastructure Financing Plan are valid and in conformity with requirements of the EIFD Law.

WHEREAS, on the basis of all of the foregoing, the Authority has determined at this time to propose the formation of the EIFD and the adoption of the Infrastructure Financing Plan as modified and in accordance with the EIFD Law.

NOW, THEREFORE, BE IT RESOLVED by the Governing Board of the Crows Landing Industrial Business Park Public Financing Authority that:

Section 1. <u>Recitals</u>. The Board finds and determines that the foregoing recitals are true and correct.

Section 2. <u>Infrastructure Financing Plan</u>. The Authority hereby adopts the Infrastructure Financing Plan, as modified, and in accordance with the EIFD Law. A copy of the Infrastructure Financing Plan was sent to each affected taxing entity and landowner within the EIFD as required by the EIFD Law and which is also on file with the office of the Secretary of the Authority.

Section 3. <u>Formation of District</u>. The Authority hereby forms the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District.

Section 4. <u>Boundaries of Proposed District</u>. The Authority hereby approves the map of the proposed boundaries of the EIFD. The boundaries of the EIFD shall be as set forth in the map entitled "Boundaries of Crows Landing Industrial Business Park Enhanced Infrastructure Financing District," a copy of which is on file with the Secretary of the Authority. The Secretary of the Authority is hereby requested to certify the map.

Section 5. <u>CEQA Compliance</u>. The Authority hereby finds that adoption of this Resolution does not constitute approval of the individual projects found in the Infrastructure Financing Plan and further that the County of Stanislaus conducted environmental review on the individual projects in the 2018 Environmental Impact Report (EIR) for the Crows Landing Industrial Business Park Specific Plan. The Authority hereby determines that the proposed establishment of the EIFD is not a "project" as defined in CEQA (see CEQA Guidelines § 15378(b)(4)) and authorizes the Secretary of the Authority to file a notice of exemption with the Stanislaus County Clerk to that effect.

Section 6. <u>Severability</u>. If any section, subsection, phrase or clause of this Resolution is for any reason found to be invalid, such section, subsection, phrase or clause shall be severed from, and shall not affect the validity of, all remaining portions of this Resolution that can be given effect without the severed portion.

Section 7. <u>Effective Date</u>. This Resolution shall take effect from and after its adoption.

PASSED AND ADOPTED by the Governing Board of the Crows Landing Industrial Business Park Public Financing Authority on this 25th day of August 2020, by the following votes.

Public Financing Authority of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District Agenda Item

BOARD AGENDA: 6.b AGENDA DATE: August 25, 2020

SUBJECT:

Adoption of an Ordinance Creating the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District and Approving the Infrastructure Financing Plan

STAFF RECOMMENDATIONS:

1. Adopt an Ordinance creating the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District and approving the Infrastructure Financing Plan

DISCUSSION:

Pursuant to Government Code Section 53398.66(g) the Public Financing Authority may adopt the Infrastructure Financing Plan by ordinance at the conclusion the Third Public Hearing provided less than 25% of the combined property owners and registered voters in the area file a protest.

The Ordinance will take effect upon its adoption and the full text the Ordinance is to be published within 15 days after its passage and a certified copy will be posted in the office of the Clerk of the County of Stanislaus.

POLICY ISSUE:

This recommendation is consistent with the Board of Supervisors' direction of pursuing an EIFD as a necessary tool to assist in financing the development of the Crows Landing Industrial Business Park.

FISCAL IMPACT:

The EIFD's funding of infrastructure costs will be limited to new incremental property tax revenue that is directly derived from development within the proposed EIFD boundary. Stanislaus County is the only participating taxing agency. The cost of publishing the public hearing notice will be covered by the Chief Executive Office Crows Landing Air Facility budget.

1. Ordinance

ORDINANCE NO. 2020-001

Adopted by the Crows Landing Industrial Business Park Public Financing Authority

AN ORDINANCE CREATING THE CROWS LANDING INDUSTRIAL BUSINESS PARK ENHANCED INFRASTRUCTURE FINANCING DISTRICT AND APPROVING THE INFRASTRUCTURE FINANCING PLAN

WHEREAS, the Crows Landing Industrial Business Park Public Financing Authority (the "Authority") has formed the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District (the "EIFD"), and adopted an Infrastructure Financing Plan (the "Plan"), pursuant to Resolution No. 2020-005 (the "Resolution"), duly adopted on August 25, 2020, for the purpose of financing certain public and other specified facilities;

WHEREAS, due to the passage of Assembly Bill 116 (2019-2020), the Authority has determined that it is advisable at this time to also create the EIFD and to adopt the Plan by this ordinance.

NOW, THEREFORE, BE IT RESOLVED by the Governing Board of the Crows Landing Industrial Business Park Public Financing Authority of the Crows Landing Industrial Business Park Enhanced Infrastructure Financing District resolves as follows:

Section 1. <u>Recitals</u>. The foregoing recitals are true and correct.

Section 2. <u>Adoption of Plan</u>. The Plan is hereby adopted as further specified in the Resolution.

Section 3. <u>Formation of EIFD</u>. The formation of the EIFD is hereby approved as further specified in the Resolution.

Section 4. <u>Severability</u>. If any provision of this Ordinance, or the application thereof, to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this Ordinance that can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are severable. The Authority hereby declares that it would have adopted this Ordinance irrespective of the invalidity of any particular portion thereof, and intends that the invalid portions should be severed, and the balance of this Ordinance be enforced.

Section 5. <u>Effective Date and Publication</u>. This Ordinance shall take effect upon its adoption and a full text of this Ordinance shall be published within fifteen (15) days after its passage, and a certified copy shall be posted in the office of the Clerk of the County of Stanislaus.
